Freelancing

MERN Stack Developer

Upwork

- As a MERN stack developer, I have successfully delivered several impactful projects, demonstrating my proficiency with MongoDB, Express.js, React.js, and Node.js.
- These projects have enhanced user engagement, boosted productivity, and optimized performance, demonstrating my ability to deliver high-impact solutions.
- Proven track record of developing high-impact, user-centric applications using the MERN stack.
- Adapted quickly to project requirements and deadlines, providing reliable support throughout the project lifecycle.
- Successfully debugged and resolved errors in the projects, ensuring smooth functionality and improved performance.

React and Tailwind Developer

Recgenz

- I led the development of RecGenz's company website, utilizing React and Tailwind CSS for optimal functionality and design consistency.
- I designed dynamic user interfaces with advanced React techniques, enhancing site interactivity and speed.
- Through Tailwind CSS, I ensured the website maintained a cohesive visual style.
- I prioritized thorough testing and diligent bug fixing to guarantee a flawless user experience.
- I collaborated effectively with cross-functional teams, leveraging tools like Figma to streamline project workflows.
- My role involved deep engagement with the full front-end development lifecycle, significantly improving my React skills.
- My contributions were instrumental in establishing and upholding RecGenz's strong online presence.
